WORKTALK WHY WE ARE HERE

The most powerful human force the world has ever seen is the US labor force

BECAUSE

WORKTALK is founded on the unique insight that the seven sentences spoken by the historical figure of Jesus of Nazareth as he died give you profound insight into the way He fulfilled His life's mission, purpose and work, and form a perfect model for you to adopt in fulfilling yours.

BECAUSE

146 million Americans form the US labor force. This is the most powerful human force the world has ever seen. Everything in today's world is shaped by that force. The six hours that Christ spent on the cross are the most powerful hours of work ever seen on earth.

BECAUSE

WORKTALK Specializes in 7 areas:

1. Coping with personal pressure and stress
2. Creating a good news working culture
3. Balancing work and home life
4. Expressing personal integrity
5. Being real and true to yourself at work
6. Finishing well and getting things done
7. Developing workplace spirituality

These specialisms also enable people to discover their unique mission and calling.

BECAUSE

The vision of WORKTALK is to enable people to see that the Man who changed the world can change the way we work.

BECAUSE

The mission of WORKTALK consists of finding ways to get the seven key working practices of Jesus of Nazareth available globally, adopted locally, and applied personally.

Our task is to bring the cross to the heart of the workforce in order to release its restoring power the for pressurized workers.

“no-one in the US has seen the faith and work issue like this”
Peter Hammond, Vice President InterVarsity Fellowship
