

GEOFF SHATTOCK

## RE-IMAGINING FROM FLORIDA TO SOUTHAMPTON

### FLORIDA TO SOUTHAMPTON

Since 1997 Geoff Shattock has pioneered in the field of solving the puzzle of faith and work. Over the last 11 years he has been developing the ministry under the name WORKTALK both in London, England and Jacksonville, Florida. Although invited to found a centre for faith and work at a large church in Florida, visa and legal obstacles have prevented that happening. He has now been 'redirected' to Southampton.....

### **WHAT IS THE CHALLENGE?**

To help us all to see the workforce and the cross force for what they are. To empower the church with insight and resources. To help pastors equip their churches. To equip pastors.

### **HOW CAN YOU HELP MY CHURCH?**

We can help you equip your church to live and work using the working practices of our Lord. The most comprehensive resource for your church is FOUR ZERO- a forty day, whole church feast of learning based on Jesus' seven sayings from the cross. It includes everything you need for all ages for seven weeks to feast on his words;; build on his words; walk by his words and look through his words **but** there are many smaller steps before you take that one

### **HOW CAN YOU HELP ME EACH WEEK?**

Since 2001 Geoff has been writing a bible-based, work- related, thought for the week email which goes to several thousand. There are nearly 600 previous editions and the first 10 years worth are available at the web site archive.

### **HOW CAN MY CHURCH BENEFIT NOW?**

Inviting Geoff to preach at a Sunday service on taking faith to work is the best way to start. This can also prepare the way for a taster conference and the introduction of all the range resources available to you. Helping your church become workplace relevant is one of the key missions-it is about creating sustained, consistent, relentless relevance to the workplace challenge. We are on your side and will support you, not criticize you, as you explore this vital mission.

### **ANYTHING SPECIFICALLY FOR PASTORS?**

Many pastors and clergy are in pain or at least weary. We now offer sessions on coping with pastor pressure which enables pastors/clergy to look at their own situations as well be further equipped to help their own congregations. We want to work with pastors on every level to enable them to release their people in this crucial area

### **RE- IMAGINING**

2018 sees the re imagining of all the years of work to release blessing here in the UK as well as create a partnership with the wonderful friends and pastors from the US so that blessing can flow two ways.
